

HIGHLIGHT OF THE MONTH

QUICK LINKS

Training opportunities in Peru in November

The Facility is delighted to announce two training courses as part of the International Microinsurance Conference. The trainings will be held at the ILO Regional Office for Latin America and the Caribbean, in Lima, Peru, on November 6. One of the trainings will be in English, focusing on creating well-designed promotion strategies, while the second, in Spanish, will address demand and client value. We look forward to seeing you in Peru!

KNOWLEDGE UPDATE

Emerging Insight: The insurer that pays claims

Pioneer Insurance

A focus on understanding customers and claims has made Pioneer Insurance one of the largest microinsurance providers in the Philippines. But what does a focus on claims really require? Read our latest Emerging Insight to learn more.

A2ii report: Offering inclusive insurance while ensuring consumer protection

A2ii

The report "Proportionality in practice: Disclosure of information" draws on the experiences of Brazil, Pakistan, Peru and El Salvador to examine regulations relating to the disclosure of information to the customer. It looks into how supervisors adopt proportionate regulation in order to encourage the industry to offer inclusive insurance while ensuring consumer protection.

NEWS FLASH

Global partnership between PSI and MIN for sustainable development

The UN Environment's Principles for Sustainable Insurance Initiative (PSI) and the Microinsurance Network have forged a partnership to promote inclusive and sustainable insurance markets around the world and to help achieve the UN Sustainable Development Goals.

Housed at the International Labour Organization, the Impact Insurance Facility enables the insurance industry, governments, and their partners to realise the potential of insurance for social and economic development. The Facility was launched in 2008 with generous support from the Bill & Melinda Gates Foundation, and has received subsequent funding from several donors.
