

Building quality at scale (2014-2018)

The ILO's Impact Insurance Facility enables the insurance sector, governments, and their partners to realise the potential of insurance for social and economic development. It does so through three primary sets of activities:

MARKET DEVELOPMENT

Accelerate development of inclusive insurance markets and leverage impact insurance to achieve public policy objectives

Multi-stakeholder coordination

Creating demand through building trust and consumer education

Strengthening supply through "challenge" funds, training and technical assistance

Enabling environment through regulation, PPPs and industry-wide collaboration

[1]

KNOWLEDGE AND CAPACITY-BUILDING

Translate knowledge into practical solutions, act as a global knowledge hub and build capacity of key stakeholders

Practice-based training curriculum and tools

Sustainable capacity-building infrastructure: e-learning, partnerships with local and regional training institutes

Peer-to-peer learning and communities of practice

Largest resource centre on impact insurance

[2]

RESEARCH AND INNOVATION

Learn and innovate with key players to push the frontiers of impact insurance

Innovation Labs with leading providers

Focused evaluations

Impact studies with academics

Partnerships with think-tanks
